

Product Guide

Welcome to Street's

Since 1876, R. R. Street & Co. Inc. (Street's) has been providing garment care professionals with unmatched quality products, processes, and service. In everything we do we stay focused on helping you deliver garments that are as clean as they can be. No compromises. No excuses.

You will find this commitment in the processes we design and recommend, in the products we manufacture and market, and in the services and support we provide. In every process component from stain removal, through cleaning and finishing, we strive to ensure that you can exceed the most important consumer satisfaction standard – clothes that always look and feel as fresh and clean as new!

Drycleaning solvent used alone will not effectively remove all the soils found on garments. Detergent is required to remove and suspend insoluble soils and aid in the removal of water-soluble soils. Detergents are also useful in controlling free moisture, reducing static and lint, and preventing soil redeposition. There are a variety of drycleaning processes in use today, and Street's has a detergent formulated to perform optimally in most systems.

All Street's products are designed to get the best detergent performance from your cleaning process, so your whites stay white, and your brights stay bright.

Spot Less™</i> Detergent & cleaning booster for GreenEarth™ (D5) systems	<ul style="list-style-type: none"> ☑ Keeps whites white & colors bright ☑ Improves cleaning results ☑ Helps reduce work, recleans, claims & costs ☑ Helps prevent static & lint ☑ Formulated to control solvent & garment odors

No matter what your finishing needs are, you'll find exactly what you are looking for in Street's products. We offer various products that will enable you to return your customers' garments to the "like new" condition they expect.

Fabric finish helps return your customers' garments to "like new" condition.

FABRIC FINISH

CUSTOM-CARE FINISH®
Gives "New Life" to Fabrics™
Professional fabric finish

- ☑ Restores garments to "like new" condition
- ☑ Helps garments resist wrinkling
- ☑ Everything you clean will benefit
- ☑ Shortens finishing time
- ☑ Makes spotting easier

Finishing Touch™
Looking Good Made Easy™
Professional aerosol sizing

- ☑ Designed for professionals
- ☑ Makes a good finish even better
- ☑ Helps garments resist wrinkling
- ☑ Unique spray nozzle reduces over-spray & clogging
- ☑ Eliminates sticking, scorching, flaking, & discoloration

GELATONE® Fabric Finish
"Extra Life" for Demanding Fabrics™
Water-soluble fabric finish

- ☑ Adds noticeable body
- ☑ Versatile & easy application
- ☑ Helps garments resist wrinkling
- ☑ Safe & effective for all fabrics
- ☑ Helps lower finishing costs

REVIVE®
Brings Garments Back to Life™
Liquid fabric finish

- ☑ Makes garments look like new
- ☑ Makes pressing easier & faster
- ☑ Garments stay pressed longer
- ☑ Effective on all fabrics
- ☑ Can be used in perc or hydrocarbon processes

Complement your professional fabricare service with fresh and pleasant smelling garments. For effective odor control, you'll find exactly what you are looking for at Street's. Cleaned garments will not only look clean, but smell clean as well.

ODOR TREATMENT

FreshTEX™
For the Freshest Smelling Clothes & Textiles™
Effective on smoke & other odors

- ☑ Use for fire restoration
- ☑ Effective on bacterial odors
- ☑ Eliminates stale, musty machine odors
- ☑ Versatile for use in perc, petroleum, HFHC & laundry
- ☑ Easy to use

ODOREX™
Eliminates Odors ... for Good™
Eliminates undesirable odors

- ☑ Permanently entraps odors
- ☑ Improves customer satisfaction
- ☑ Makes pressing & stain removal more pleasant
- ☑ Insurance against invisible odor unpleasantness
- ☑ Versatile for use in drycleaning or wetcleaning

Sometimes clean isn't the only issue for your customers. For effective odor control, you'll find exactly what you are looking for at Street's.

Street's has a full line of specialty stain removal agents to help remove most any wet-side, dry-side, or combination stains you may encounter.

Stain and soil removal is the primary reason consumers bring their garments to a cleaner, so you need products that effectively remove as many stains as possible without removing dye or damaging fabric.

Street's offers the products, processes, and advanced technologies to help your business provide exceptional performance and make your business stand out.

Street's stain removers are known for exceptional performance.

- ☑ Stain removal products for use with any solvent system, including wetcleaning & laundry
- ☑ Enhanced stain removal
- ☑ A product for most types of stains
- ☑ Safe to most fabrics and colors

		*Devour® <i>For the Untouchables™</i> Liquid enzymatic digester for stains containing protein or starch	<ul style="list-style-type: none"> ☑ Liquid digester designed for the spotting board ☑ High performance protein digester ☑ Removes complex insoluble protein & starch stains ☑ Use full strength, as a soaking solution or pre-treatment or in a soaking bath

*Product contains no Proposition 65 listed ingredients or halogenated compounds.

STAIN REMOVAL AGENTS – CONTINUED

Wet-Side Stain Removers

GENERAL FORMULA 209®

The Peak of Cleaning Performance™

Safe, fast & effective removal of tannin stains

- ✓ Designed for the spotting board
- ✓ Aggressive on tough tannin stains like caramelized sugar, grass, liquor, & fruit stains
- ✓ Removes writing ink and last traces of lipstick stains
- ✓ Effective yet safe to most fabrics and colors

MULSOLITE®

Puts Water to Work™

Neutral lubricant that makes wet-side stain removal easier, faster, & more effective

- ✓ Speeds stain removal
- ✓ Removes stains without leaving soapy residue
- ✓ pH neutral formula is safe to most fabrics & colors
- ✓ Removes stubborn dry-side stains
- ✓ Can be used with acid & alkali stain removal formulations

*SOFSPOT®

Gets the Soil. Preserves the Garment™

Safely removes water-soluble stains on silk, rayon, wool, linen, cotton & other sensitive fabrics

- ✓ Removes stains quickly
- ✓ Safe for pH sensitive fabrics
- ✓ Minimizes dye-bleeding at the spotting board
- ✓ Leveling agent
- ✓ Helps prevent localized redeposition

StreePRO®

Safest for Protein Stains™

Safe, fast & effective removal of protein stains

- ✓ Outstanding safety
- ✓ Remains safe, even when applying steam
- ✓ Loosens stains and increases efficiency at the board
- ✓ Quick & easy stain removal
- ✓ Effectively removes last traces of ink stains

*StreeTAN®

Safest for Tannin Stains™

Safe, fast & effective removal of tannin stains

- ✓ Outstanding safety
- ✓ Remains safe, even when applying steam
- ✓ Loosens stains and increases efficiency at the board
- ✓ Quick & easy stain removal
- ✓ Effectively removes last traces of ink stains

*STREETEX®

Get it Clean the First Time™

Safe, fast & effective removal of water-soluble stains

- ✓ Goes to work faster for quick & successful pre-spotting
- ✓ Easy & safe to use
- ✓ Acts as a leveling agent
- ✓ Helps clean heavily soiled loads when added to the wheel
- ✓ Use in combination with PICRIN® in 2-1 FORMULA®

Controlled Bleaching

*READY-STRIP™

Makes Dye Disappear™

Titanium stripper for fast, effective removal of fugitive dye & residual dye stains

- ✓ Safe to all non-metallic fabrics
- ✓ Can be used on most colored garments
- ✓ Use full strength or in a soaking bath
- ✓ Does not over-whiten
- ✓ Virtually odor-free formula

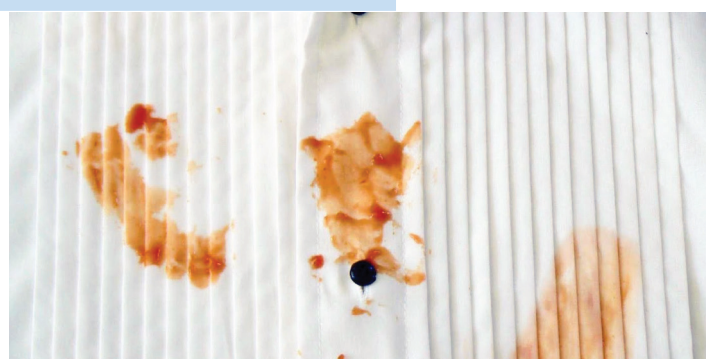

*STREEPENE®

For Controlled Bleaching Action™

Reducing bleach designed to remove fugitive dyes & the last traces of hard-to-remove stains

- ✓ Removes last traces of stubborn stains on white garments
- ✓ Can be used on colored garments
- ✓ Safe on all non-metallic fabrics
- ✓ Versatile

Street's offers products to help remove even the toughest stains, including paint, oil & grease stains, protein stains, tannin stains, and even cosmetics, tar, & ink.

Street's offers pre-treatments and stain removal agents for most every type of drycleaning system, including traditional petroleum, perchloroethylene (perc), **DF-2000™** high flash hydrocarbon, GreenEarth® (D5), wetcleaning & laundry. Street's full line of stain removal agents and pre-treatments safely, effectively and efficiently treat and remove just about any stain you may encounter. Street's knows clean.

PRE-TREATMENTS

CollarPOWER™

Scrubs Out Collar & Cuff Grime™
Concentrated laundry pre-treatment

- ✓ Concentrated for extra cleaning power
- ✓ Saves time by doing the scrubbing for you
- ✓ Rinses easily & completely with water
- ✓ Reduces recleans & post-spotting
- ✓ Versatile application

GreenSPOT™

Puts the Clean into Green™
No-flush pre-treatment, leveling agent & cleaning booster for GreenEarth® (D5) systems

- ✓ Pre-treatment for GreenEarth® (D5) systems
- ✓ Reduces recleans
- ✓ Boosts system cleaning power
- ✓ Controls moisture
- ✓ Prevents spotting rings

MultiSPOT®

Safely Removes More Stains™
No-flush pre-treatment, leveling agent & cleaning booster for perc systems

- ✓ Pre-treatment for perc systems
- ✓ Reduces recleans
- ✓ Boosts system cleaning power
- ✓ Treats both wet-side & dry-side stains
- ✓ Prevents spotting rings

SPOTLess hc®

Clean it Once and Be Done™
No-flush pre-treatment, leveling agent & cleaning booster for DF-2000™ systems

- ✓ Pre-treatment for hydrocarbon systems
- ✓ Reduces recleans
- ✓ Boosts system cleaning power
- ✓ Controls moisture
- ✓ Prevents spotting rings

Street's pre-treatments offer superior stain removal for drycleaning, wetcleaning & laundry.

- ✓ Provide for easy soil removal
- ✓ Reduce recleans
- ✓ Boost system cleaning power
- ✓ Prevent spotting rings

Street's offers a line of pre-treatments for most every system that are formulated to boost cleaning performance.

PURITAN® Filtration for Consistently Cleaner Solvent & Cleaner Clothes

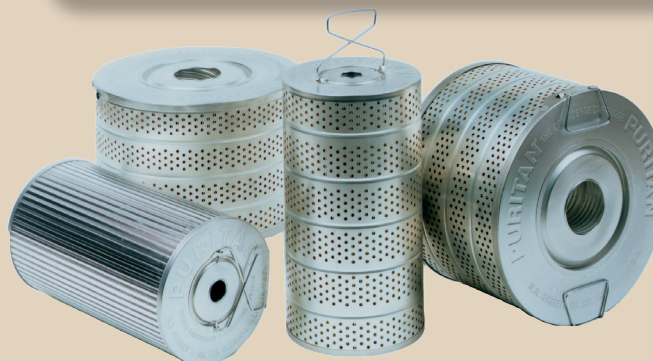

- ✓ Consistently cleaner solvent & cleaner clothes
- ✓ Helps minimize redeposition
- ✓ Superior removal of dye & other color impurities
- ✓ Fully sealed to prevent soil bypass
- ✓ Special pleat design provides more filtering surface
- ✓ Vibratic-packed carbon core filled to capacity
- ✓ Premium filter paper with ultra-fine pores for superior filtering
- ✓ Outer shell provides strength and allows unrestricted solvent flow

Differences in cleaning machine configurations, cleaning processes, solvents, & the work processed means that there are differing requirements for contaminant removal from one cleaning system to another. So whatever your requirements, there is a PURITAN model especially designed to meet your needs.

**LF™ Large Format
Dye Eater™**

**All Carbon
Carbon Core**

**Adsorptive
All Clay**

PURITAN® Filtration
Cartridges trap and remove more insoluble soil and control more dye than any other cartridge.

THE CONFIDENCE CARTRIDGE™

The Most Trusted Name in Hydrocarbon Available Only from Street's

There are a number of systems available to today's professional drycleaners. **DF-2000™ Fluid** high flash hydrocarbon is manufactured to ensure consistent, premium quality, so it remains stable through multiple distillation and reclamation cycles. Consistent quality means predictable cleaning performance and a consistent level of safety that is not available in lesser quality hydrocarbon solvents.

DF-2000™ Fluid is supported by Street's complete family of detergents, fabric finishes, & stain removal products to give you the best performance from your hydrocarbon system.

DF-2000™ Fluid is a trademark of ExxonMobil Corp.

PerSec® perchloroethylene is faster and more effective at dissolving grease and oil than methyl siloxane, hydrocarbon or CO₂ solvents; meaning shorter cycle times, increased machine productivity, decreased hand labor and increased profitability.

PerSec® dries faster and distills easier than alternative cleaning fluids, meaning less energy consumption, and lower utility bills. Only **PerSec®** uses the patented **CAREfill™** closed loop delivery system, eliminating leaks, drips and vapors to safeguard customers, employees, business neighbors, and the environment.

- Proven Cleaning Performance
- Fast Drying Times
- Non Flammable
- Patented CAREfill Closed Loop Delivery

PerSec® CAREfill™

Street's **H₂PRO™** wetcleaning lineup provides a complete range of products formulated to work together to safely and effectively care for all fabrics that should be cleaned in water.

When water is the best choice **H₂PRO™** has a solution for your cleaning & finishing needs.

PROFESSIONAL WETCLEANING & LAUNDRY

H₂PRO™ Detergent
for wetcleaning & laundry

- ✓ Concentrated formula
- ✓ Loosens & suspends soils
- ✓ Performs effectively at low temperature
- ✓ Keeps whites & colors bright
- ✓ Reduces felting & shrinkage

H₂PRO™ High Performance Detergent
for wetcleaning & laundry

- ✓ Concentrated formula for tough dirt
- ✓ Removes greasy, oily soils
- ✓ Enzymatic stain removal
- ✓ Keeps whites & colors bright
- ✓ Effective performance in varying water conditions

H₂PRO™ Fabric Conditioner
for wetcleaning & laundry

- ✓ Keeps fabrics in like-new condition
- ✓ Reduces static & lint
- ✓ Protects against shrinkage
- ✓ Reduces wrinkling
- ✓ Shortens finishing time

GELATONE® Fabric Finish
"Extra Life" for Demanding Fabrics™
Water-soluble fabric finish

- ✓ Adds noticeable body
- ✓ Versatile & easy application
- ✓ Helps garments resist wrinkling
- ✓ Safe & effective for all fabrics
- ✓ Helps lower finishing costs

BOILER WATER CONDITIONER

STEAM DRAGON™
Boiler & steam system water conditioner

- ✓ Reduces scale build-up
- ✓ Helps fight corrosion
- ✓ Oxygen scavenger prevents oxygen pitting
- ✓ Protects water return tanks & pipes

Protect your investment and ensure your steam system's efficiency.
